Supplemental DETAILED ACTION

Examiner's Remarks

1. This office action is being sent to applicant to correct the number of allowed claims. The previous office action, Notice of Allowance, mailed 04/03/2009 stated claims 1-11 are allowed, however there are only claims 1-7 in the case. This was an over cite by the examiner. The reasons for allowance remain the same. The only change to this office action is the number of claims allowed. Please find the corrected action below.

Response to Amendment

1. In response to the Amendment received on February 10, 2008, the examiner has carefully considered the amendments.

Terminal Disclaimer

2. The terminal disclaimer filed on February 10, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of commonly owned US Patent No. 6,884,827 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Arguments

3. Applicant's arguments, see Remarks/Amendment, filed 02/10/2009, with respect to claims 1-7 have been fully considered and are persuasive. The rejection of claims 1-7 under 35 USC 1032(a) as being unpatentable over JP2004-331814 to Yamamoto et al in view of Matsumoto et al (JP06-051679) as evidenced by Salvoy Advanced Polymer, LLC product data sheet has been withdrawn. Applicant has filed a certified translation of the foreign priority document, perfecting the effective date of October 2, 2003. And as such JP2004-331814 to Yamamoto et al is not available as prior art against the instant claims.

4. Additionally, the rejection of claims 1-7 under 35 USC 1032(a) as being unpatentable over Ota et al (US 2004/0082701) in view of Fukunaga et al (5,428,096) and Matsumoto et al (JP06-051679) has been withdrawn. In view of applicant's perfected dated Ota et al is not available as prior art against the instant claims. Therefore the instant invention is allowable over the cited art.

Allowable Subject Matter

5. Claims 1-7 are allowed.

6. The following is an examiner's statement of reasons for allowance: The prior teaches irradiation of fluororesins with actinic radiation, such as gamma, electron beam, UV and the like; as well as, teaching mixtures of irradiated fluororesins with non-irradiated fluororesins. However, the prior art fails to teach, alone or in combination, seal rings obtained from mixtures of non-irradiated fluororesins and irradiated fluororesins with synthetic resins having the instant claimed surface energy for sealing operating oil hermetically or hydraulic seal devices. Wherein said irradiated fluororesin was irradiated with ionizing radiation while being heated up to the melting point thereof or higher in an inert atmosphere

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanza L. McClendon whose telephone number is (571) 272-1074. The examiner can normally be reached on Monday through Friday 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on (571) 272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
